well acquainted with the Ashland pitcher in yesterday's game. Basil Duke took the O. and B. S. Con-

ductor for a "farmer" at Ashland, and he didn't get to see the game. There will be a game of ball today back

of Hunter's mill between Eddie Guilfoyle's team and a picked nine. "Dickie" played ball at Ashland, and THE LEDGER is the first paper to note the

fact. Van's all right when he wants to The Huntingtons beat the Irontons

Tuesday by a score of 6 to 5. Batteries-Taylor and Handley, Brietenstein and Carr. In yesterday's game the Locals demen-

strated that they could handle the ash in Ashland to the discomfiture of the Ash-

Captain McGann's favorite song, "No-Ashland yesterday.

After the boys take the topknot off the Reds tomorrow, the next thing on the calendar is to remove the head ornament of the Manhattans next Tuesday and

The man who said Hilleary couldn't play ball will have to swallow the say. He is one of those kind of ball players that knows how to handle the stick. In the game at Ashland Tuesday he got two singles and a home run.

THE LEDGER "touched up" Willie Wellner just a little, and Willie has been demonstrating of late that he can play ball, he having two shut-outs to his credit in two weeks; and as long as he does that we'll heap roses upon his triumphant

The Locals will play the Vanceburg team today. That team has not been defeated since its reorganization, having played games with the Manchesters, Higginsports, West Unions, Tollesboros and several other meadow-making teams, and the Locals will no doubt have a "hard"

Tomorrow the Locals go up against that large-pated organization known as the Cincinnati Reds, and if blowing will win the home team are not in it. Buck Ewing will bring ten men and an umpire because they had Gray on the team, and now that same Gray is playing better ball have only nine men and an umpire, and

WEEKLY CROP REPORT.

THE ASHLANDERS WENT DOWN UNCLE SAM'S WEATHER CLERK ON THE PROSPECTS.

> Crops Throughout Kentucky Up to Monday Evening Last.

Sunshine and warmer weather were the conditions most needed for the benefit of crops during the past week. In this re- FLOTSAM AND JETSAM! spect the Eastern counties and many in the central portion of the state had their wants supplied, but the Western section rainfall in addition to the abnormal amounts heretofore reported. In the counties West of an imaginary line connecting Meade and Wayne, the average rainfall, which occurred July 30th and 31st, exceeded one inch. The correspondent in Hart county reported four inches, and in Grayson two inches. In the Bluegrass region and the counties to the Northwards, light showers occurred at the beginning of the week. Jefferson county was apparently alone in the enjoyment of Sunday's showers, while in the Eastern portions only scattered showers occurred during the week.

The distribution of sunshine was about normal, especially during the last five days, but the temperature during the nights was unusually cool. Minima temperatures of fifty degrees were experienced the first two days of the week in the Northern and Western counties, but crops have not suffered much on this account.

Wheat threshing is about completed in the Western, and is progressing rapidly in the Eastern portion. In some places it has sprouted and there are reports of test of excessive rains exceedingly well. Notwithstanding the heavy rainfall, the crop is in better condition, generally speaking, in the Western than in the Eastern sections, while with respect to oats the crop conditions in the different portions of the state are reversed. The general estimate of both crops throughout the state places the quality and yield below the average. Fall plowing has begun, and in some sections farmers are burgh. breaking 25 per cent. more wheat lands than they had this year.

Tobacco is growing nicely, but in the Western portions, where it was worked an effort to secure the appropriation of The Maysville boys seemed to be pretty while the soil was wet, continued excess \$1,000,000, for the improvement of the of rainfall has caused frenching; but with favorable weather conditions the outlook is good. ton countles, yet the supply of stock water is everywhere sufficient.

Texas fever broke out early in the week among cattle in Nelson county, but it is now reported under control. Elsewhere cattle are in good condition.

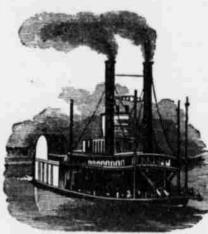

Sorghum crop is good, and will be ready to be worked by the middle of this month.

Farmers are jubilant over the splendid conditions of vegetables generally. Po tatoes, as a rule, are excellent, although there is some complaint of rotting in soils too wet for digging. Watermelons are ripening, and the crop is large. The melors, however, are small. In Kenton county the melon and cucumber vines are being destroyed by strange black and striped bugs.

Fruit, except peaches, is everywhere abundant. Apples and pears are plentiful, apple trees in Powell, Hart and other O. O. F., are requested to meet at their counties breaking down under the bur- Hall Thursday, August 8th, 1895, at 1
